Portal Free Download Mac No Steam

Now I don't have the time, motivation and knowledge to port the game to Mac myself, but I can provide you with a zipped.. Portal: Prelude was never supposed to work on Mac Valve ported their Source Engine under Mac OS without telling anyone and especially not me.. Wow, now I find Mac games on Steam - THEY'RE ALL RINKY DINK PUZZLE GAMES that I could get elsewhere! And to add insult to injury Portal is free, yeah - But when I go to download it - it downloads the Steam app again! I think that the folks behind this just don't know what they're doing.. Portal™ is a new single player game from Valve Set in the mysterious Aperture Science Laboratories, Portal has been called one of the most innovative new games on the horizon and will offer gamers hours of unique gameplay.
